## Ozgrowth

A listed investment company focused on producing a positive return to shareholders over the medium to long term through investment in small to medium sized companies, generally with a connection to Western Australia.

# Chairman's Report and the Period In Review

On behalf of my fellow Directors, I am pleased to provide the 2013 Annual Report for the Company.

Significant results of the year include:

- A net loss after tax of \$44,910 was generated. This compares to a profit after tax in the prior year of \$1,080,360;
- A final dividend of 1.0 cents per share has been provided for in respect of the 2013 financial year (2012: 0.8 cents). An interim dividend of 0.5 cents per share was paid in February 2013 (2012: 0.2 cents);
- Net tangible assets per share after allowance for tax on unrealised profits/losses (NTA) moved from 22.5 cents to 21.1 cents, with the dividend allowance of 1.5 cent per share over the period being the main element of the difference. Share buybacks provided a small positive increment. These figures are calculated by dividing the total net assets as set out in the Statement of Financial Position by the number of ordinary shares on issue as at the reporting date and is after allowance for dividends and all costs and tax on unrealised gains in our investment portfolio;
- A total of 4,316,571 ordinary shares were acquired under a share buyback and cancelled in the period.

For more detailed information on the investment performance and portfolio of the Company, I refer you to the Investment Manager's Report on page 4.

As I am sure you are aware, the environment for our investment strategy in the past year was again hostile. Whilst the overall market showed a positive return, this masked an almost halving of the small resources index over the twelve months. With our focus on small to mid sized stocks with a connection to Western Australia, this underperformance of resource related stocks provided a significant headwind.

In light of these market conditions, we were broadly able to maintain the value of our investment portfolio.

One initiative undertaken by the Board in the last financial year was to provide investors with a better understanding of our dividend intentions. In September 2012, we announced our dividend targets for the 2013 and 2014 financial years. We have now met the 2013 guidance and are confident that the 2014 target remains appropriate.

We believe that as confidence builds in our ability to meet our stated targets, both in terms of our portfolio investment returns and our dividend payments, investors will benefit from a closer alignment between market price of our shares and underlying net asset value.

I am sure that the 2014 financial year will again present a range of challenges, but I am confident that our long term strategy will continue to generate satisfactory returns.

This will be my last report to you as Chairman, having announced my intention to stand down as a Director at our coming Annual General Meeting. I commenced in this role at the establishment of the Company in late 2007, which coincided with the most problematic period for financial markets I have encountered in my 30 years of participation. Having grown our asset value and paid out significant dividends since this time, I believe we can all be proud of these achievements to date.

I leave the Company in good hands and would like to thank my fellow Directors, shareholders and all others involved over the last 6 years.

Yours sincerely

# About Ozgrowth

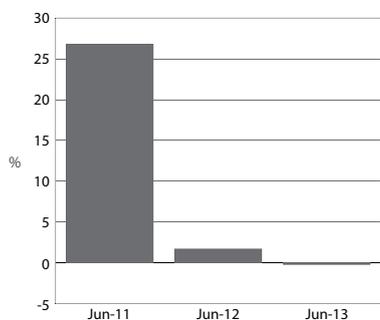

- Ozgrowth Limited is a listed investment company (ASX code: OZG) that focuses on producing a positive return on funds invested.
- It was formed on 9 July 2007 and raised its initial capital for investment in December 2007. As at 30 June 2013, it had \$76,929,486 of assets invested.
- The company has appointed Westoz Funds Management Pty Ltd as manager to oversee the investment of its portfolio of assets. This manager is a wholly owned subsidiary of Euroz Limited, a listed company that also operates a stock-broking business based in Western Australia.
- The investment mandate set is to identify undervalued companies listed on the Australian Securities Exchange and to invest to produce a positive return. Because of the geographic location of the manager, it is anticipated that the majority of situations identified will have a connection to Western Australia and will have a market capitalisation of less than \$1,000 million.
- Ozgrowth Limited will consider investments in small companies, as well as suitable unlisted opportunities.
- The manager is paid a base fee of 1% per annum of funds managed. In addition, where performance exceeds 7% over a twelve month period to the end of June, a performance fee is paid to the manager.

# Investment Manager's Report

Portfolio Performance (%)

## Portfolio Return

The Company invests in small to mid-sized companies, generally listed on the Australian Securities Exchange and with some connection to Western Australia. The portfolio of assets is managed to generate a positive return regardless of movements in the broader equity market.

To assist in an assessment of performance, the rate of return before fees and taxes is calculated. The figure is calculated by dividing the gain (or loss) in value of the portfolio, net of external flows, by the average portfolio value over the period of measurement. Portfolio value is determined by reference to current market value of underlying investments. Monthly periods are used and then geometrically linked to arrive at an annual return. This figure is not audited.

The last twelve months of investment activity generated an investment return of -0.2% before allowance for fees and taxes (2012: 1.7%).

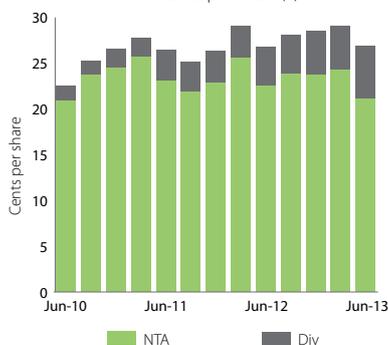

It is the objective of the manager to produce positive investment returns over the medium to long term, thereby boosting the net asset backing per share (NTA) and allowing for the payment of dividends.

The figures presented for information regarding NTA are on a per share basis and after allowance for all realised and unrealised costs, dividends and provision is made for tax payable on unrealised gains.

At 30 June 2013, the net assets per share was 21.1 cents (2012: 22.5 cents).

At 30 June 2013, a provision for payment of 1.0 cent per share by way of dividend was made. This dividend is expected to be paid in August 2013. At 30 June 2012 provision for a 0.8 cent per share dividend was made.

Net Assets per share (¢)

## Asset Allocation

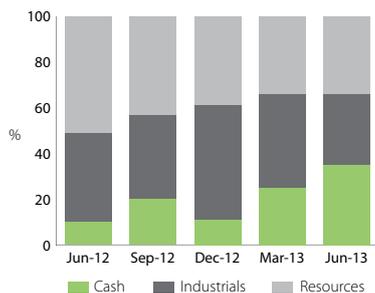

Investment activity commenced in January 2008 with a portfolio consisting entirely of cash.

35% of assets were held in cash at 30 June 2013.

The Company may hold significant cash levels from time to time if suitable equity investments are not available.

Within the equity component of the portfolio, resource stocks represented 52%, with industrial stocks 48%.

## Outlook

As we enter the 2014 financial year, probably the most significant issue facing domestic equity markets is how the transition away from an environment of strong commodity prices flows through equity prices. Whilst the 2013 year saw significant price adjustments for a number of companies, this adjustment is expected to continue, albeit at a more constrained pace.

With our large cash balance at the commencement of the year, we believe we are well placed to benefit from continued volatility in the broader equity market. Our strategy remains to assemble a concentrated portfolio of securities that will generate a positive return despite broader market conditions.

The Board of Directors has recommended that a final dividend of \$3,595,316 (1.0 cents per share) be paid in respect of the 2013 financial year. This amount is provided in the 30 June 2013 financial statements (2012: \$2,910,785).

## 6. Review Of Operations

The financial results of the company are driven by the gain or loss on its investment portfolio, which consists primarily of securities listed on the Australian Stock Exchange and short term cash deposits. Whilst the investment objective for the portfolio is to generate positive returns over the medium to long term, short term fluctuations in the broader equity market will influence results.

Apart from movements in the broader equity market, the key driver of income for the Company will be the manager's ability to select appropriate investments. The majority of expenses are directly linked to the value of the portfolio managed and the level of return achieved.

For further information on the Company's operations, a Chairman's Report and Investment Managers Summary is included on pages 2 to 5 of this Annual Financial Report. This, together with the sections headed "Significant Changes in State of Affairs" and "Events Subsequent to Balance Date", provide a review of operations of the Company during the period and subsequent to reporting date.

## 7. Significant Changes In State Of Affairs

4,316,571 ordinary shares were bought back and cancelled during the period.

There have been no other significant changes in the state of affairs of the company.

## 8. Significant Events After The Balance Date

As at 12 August 2013, the All Ordinaries Accumulation index has risen approximately 7% since 30 June 2013.

There has not been any matter or circumstance that has arisen since the balance date that has affected or may significantly affect the operations of the company, the results of those operations or the state of affairs of the company in subsequent periods.

## 9. Likely Developments And Future Results

Future results will be driven by the outcome of the Company's investment strategy, which will in turn be influenced by the overall direction of equity markets. These returns are uncertain and are expected to vary significantly from year to year.

The Chairman's Report, Directors' Report and the Review of Operations contains further information on recent and likely future developments and results.

# Directors' Report

---

The elements of emoluments have been determined on the basis of the cost to the Company. Emoluments of Directors are not related to the performance of the Company.

The fees payable to Westoz Funds Management Pty Ltd include management fees of \$876,303 (2012: \$929,882). No performance fee was payable (2012: \$nil) for the year. These fees were charged in accordance with a 10 year management agreement starting from 14 December 2008. The management fee is calculated at 1% per annum of funds managed. The performance fee as specified in the management agreement is payable where performance exceeds 7% over a twelve month period to end of June and is calculated at 20% of the performance exceeding the threshold. The manager is required to give three months written notice to terminate the agreement. The performance fee is based on the above performance condition to be able to link the performance of the company to the services provided by the fund manager.

The short term incentive provided by the performance fee is payable once a nominated level of profitability is achieved in a financial year. The level of profitability is ultimately determined by the investment return on funds invested and is reflected in the earnings per share figure. The following table shows the link between short term incentives and shareholder wealth over the last 5 years:

Financial Year Ending	Diluted EPS (cents)	Share price at balance date (cents)
Jun-09	-0.9	15.0
Jun-10	2.2	16.0
Jun-11	3.6	16.5
Jun-12	0.3	16.0
Jun-13	0.0	16.5

There are no long term incentives payable.

## 14. Corporate Governance

In recognising the need for the highest standards of corporate behaviour and accountability, the Directors of Ozgrowth Limited support and have adopted a corporate governance plan. Details of the Corporate Governance Practices can be found on page 38 to 44.

## 15. Auditor Independence

The auditor's independence declaration under section 307C of the Corporations Act 2001 is included on page 12 and forms part of the Ozgrowth Limited's report for the year ended 30 June 2013.

## 16. Non Audit Services

The following non-audit services were provided by the company's auditor, Ernst & Young. The directors are satisfied that the provision of non-audit services is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001. The nature and scope of each type of non-audit service provided means that auditor independence was not compromised.

AASB 13	AASB 13	<p>AASB 13 establishes a single source of guidance under AASB for determining the fair value of assets and liabilities. AASB 13 does not change when an entity is required to use fair value, but rather, provides guidance on how to determine fair value when fair value is required or permitted. Application of this definition may result in different fair values being determined for the relevant assets.</p> <p>AASB 13 also expands the disclosure requirements for all assets or liabilities carried at fair value. This includes information about the assumptions made and the qualitative impact of those assumptions on the fair value determined.</p>	1 January 2013	No material impact expected.	1 July 2013
AASB 2011-4	Amendments to Australian Accounting Standards to Remove Individual Key Management Personnel Disclosure Requirements [AASB 124]	This amendment deletes from AASB 124 individual key management personnel disclosure requirements for disclosing entities that are not companies. It also removes the individual KMP disclosure requirements for all disclosing entities in relation to equity holdings, loans and other related party transactions.	1 July 2013	No material impact expected.	1 July 2013

## 2. Summary Of Significant Accounting Policies (continued)

### (c) Financial assets

#### (i) Initial recognition and measurement

Financial assets within the scope of AASB 139 are classified as financial assets at fair value through profit or loss, loans and receivables or as derivatives designated as hedging instruments in an effective hedge, as appropriate. The Company determines the classification of its financial assets at initial recognition.

All financial assets are recognised initially at fair value plus transaction costs, except in the case of financial assets recorded at fair value through profit or loss.

#### (ii) Subsequent measurement

The subsequent measurement of financial assets depends on their classification as described below:

Financial assets at fair value through profit or loss.

Financial assets at fair value through profit or loss include financial assets held for trading and financial assets designated upon initial recognition at fair value through profit or loss. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term.

Financial assets designated upon initial recognition at fair value through profit and loss are designated at their initial recognition date and only if the criteria under AASB 139 are satisfied.

The Company evaluates its financial assets held for trading, to determine whether the intention to sell them in the near term is still appropriate. When in rare circumstances the Company is unable to trade these financial assets due to inactive markets and management's intention to sell them in the foreseeable future significantly changes, the Company may elect to reclassify these financial assets. The reclassification to loans and receivables, available-for-sale or held to maturity depends on the nature of the asset. This evaluation does not affect any financial assets designated at fair value through profit or loss using the fair value option at designation, these instruments cannot be reclassified after initial recognition.

All financial assets designated as fair value through profit or loss are equity instruments that are managed through making purchase and sales decisions based on their fair value in accordance with the Company's investment strategies. The financial information about these financial assets is provided internally on that basis to the Investment Manager and to the Board of Directors.

For investments that are actively traded in organised financial markets, fair value is determined by reference to the Stock Exchange quoted market bid prices at the close of business on the Statement of Financial Position date, without any deduction for transaction costs.

When the fair value of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of mathematical models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values.

The judgments include considerations of liquidity and model inputs such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. The models are calibrated regularly and tested for validity using prices from any observable current market transactions in the same instrument (without modification or repackaging) or based on any available observable market data.

Gains and losses on investments at fair value through profit and loss are recognised in the Statement of Comprehensive Income.

Purchases and sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place are recognised on the trade date i.e. the date that the Company commits to purchase the asset.

Changes in the fair value of investments – net gains or losses on investments designated as at fair value through profit or loss are calculated as the difference between the fair value at sale or fair value at reporting date and the fair value at the previous valuation point. This includes both realised and unrealised gains and losses but does not include dividend or interest income.

## 2. Summary Of Significant Accounting Policies (continued)

### (iii) De-recognition of financial assets

A financial asset (or where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when:

- The rights to receive cash flows from the asset have expired;
- The Company retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party lender under a "pass-through" arrangement; or
- The Company has transferred its rights to receive cash flows from the asset and either has transferred substantially all the risks and rewards of the asset, or has transferred control of the asset.

### (d) Cash and cash equivalents

Cash and cash equivalents in the Statement of Financial Position comprise cash at bank and short term deposits, including bank bills with a maturity of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

For the purposes of the Cash Flow Statement, cash and cash equivalents consists of cash and cash equivalents as defined above, net of outstanding bank overdrafts.

### (e) Income Tax

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities based on the current period's taxable income. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the balance date.

Deferred income tax is recognised on all temporary differences at the balance date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognised for all temporary differences except where the deferred income tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

Deferred income tax assets are recognised for all deductible temporary differences, carry-forward of unused tax assets and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax assets and unused tax losses can be utilised except where the deferred income tax asset relating to the deductible temporary arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

The carrying amount of deferred income tax assets is reviewed at each balance date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Unrecognised deferred tax assets are re-assessed at each balance date and are recognised to the extent that it has become probable that future taxable profit will allow all or part of the deferred income tax to be utilised.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or liability is settled, based on tax rate (and tax laws) that have been enacted or substantively enacted at the balance date.

Income taxes relating to items recognised directly in equity are recognised in equity and not in the Statement of Comprehensive Income.

## 2. Summary Of Significant Accounting Policies (continued)

### (f) Other Taxes

Revenues, expenses and assets are recognised net of the amount of GST except:

- where the GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- receivables and payables are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the Statement of Financial Position.

Cash flows are included in the Cash Flow Statement on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority are classified as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to the taxation authority.

### (g) Income Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes. The following specific recognition criteria must also be met before revenue is recognised:

Interest - revenue is recognised as interest accrues using the effective interest rate method which is the rate that exactly discounts estimated future cash flows through the expected life of the financial investment to the net carrying value of the financial asset.

Dividend - revenue is recognised when the Company's right to receive the payment is established. This is taken to be the date the share is quoted ex-dividend.

### (h) Trade and Other Payables

Liabilities for trade creditors and other amounts are carried at amortised cost which is the fair value of the consideration to be paid on goods and services received. They represent liabilities for goods and services provided to the company prior to the end of the financial year that are unpaid and arise when the company is obliged to make future payments in respect of the purchase of these goods and services.

Payables include outstanding settlements on the purchase of investments and dividends payable. The carrying period is dictated by market conditions and generally less than 30 days.

Payables to related parties are carried at the principal amount. Interest, when charged by the lender, is recognised as an expense on an accrual basis.

### (i) Contributed Equity

Ordinary share capital is recognised at the fair value of the consideration received by the company and is classified as equity.

Any transaction costs arising on the issue of ordinary shares are recognised directly in equity as a reduction of the share proceeds received.

### (j) Earnings Per Share

Basic earnings per share (EPS) is calculated as net profit attributed to ordinary equity holders divided by the weighted average number of ordinary shares outstanding during the year adjusted for any bonus element. The Company has no dilutive securities on issue.

### (k) Trade and Other Receivables

Receivables are recognised and carried at original amount less any allowance for uncollectible debts. An estimate of doubtful debts is made when there is objective evidence that the Company will not be able to collect the debt. Bad debts are written off when identified. Amounts are normally received within 30 days of being recorded as receivable.

## 2. Summary Of Significant Accounting Policies (continued)

### (l) Dividends

Provision is made for the amount of any dividend declared by the directors on or before the end of the financial year, but not distributed at balance date.

### (m) Performance Fees

Performance fees are calculated in accordance with contractual arrangements and are payable in the year in which the returns are generated.

### (n) Due to and from brokers

Amounts due to brokers are payables for securities purchased (in a regular way transaction) that have been contracted for but not yet delivered on the reporting date. Refer to the accounting policy for 'trade and other payables' for recognition and measurement of these amounts.

Amounts due from brokers include margin accounts and receivables for securities sold (in a regular way transaction) that have been contracted for but not yet delivered on the reporting date. Refer to accounting policy for 'trade and other receivables' for recognition and measurement of these amounts.

### (o) Significant Accounting Judgements, Estimates and Assumptions

There are no significant accounting judgments, estimates and assumptions during the financial year other than those described in Note 5.

## 3. Segment Information

For management purposes, the Company is organised into one main business segment, which invests in equity securities on the Australian Stock Exchange. All of the Company's activities are interrelated, and each activity is dependent on the others. Accordingly, all significant operating decisions are based upon analysis of the Company as one segment. The financial results from this segment are equivalent to the financial statements of the Company as a whole.

The Company operated in one geographical area being Australia.

## 4. Changes In Fair Value Of Investments Designated As At Fair Value Through Profit Or Loss

	30/06/13	30/06/12
	\$	\$
Net realised gain on disposal of investments – listed equities	2,481,726	10,545,290
Net unrealised (loss) on investments – listed equities	(4,835,619)	(11,471,474)
	(2,353,893)	(926,184)

The total number of contract notes that were issued for transactions during the financial year was 728 (2012: 508). The total brokerage paid on these contract notes was \$495,922 (2012: \$412,340).

## 5. Fair Value Of Financial Instruments

The following table shows financial instruments recorded at fair value, analysed between those whose fair value is based on quoted market prices, those involving valuation techniques where model inputs are observable in the market and those where the valuation technique involves the use of non-market observable inputs.

	Valued at Quoted market price (Level 1)	Valuation Technique market observable inputs (Level 2)	Valuation technique non – market observable inputs (Level 3)	Total
30 June 2013				
Financial assets at fair value through profit or loss				
<i>(i) Listed equities</i>	49,549,850	-	-	49,549,850
<i>(ii) Unlisted Equities</i>	-	-	400,005	400,005

<i>(ii) Unlisted Equities</i>	-	-	400,005	400,005
	75,547,274	-	400,005	75,947,279

The level in which instruments are classified in the hierarchy is based on the lowest level input that is significant to the fair value measurement in its entirety. Assessment of the significance of an input requires judgement after considering factors specific to the instrument.

The fair value of listed equity is based on quoted market prices at the reporting date (bid price for long positions), without any deduction for transaction costs.

For instruments for which there is currently no active market the Company uses a valuation model which is accepted in the industry. Some of the inputs to that model may not be market observable and are therefore estimated based on assumptions. In the case of unlisted equities, recent transactional evidence has been obtained that supported the current valuation. If, in the future, similar transactions occur at significantly different values, the fair value of unlisted equities will be revised appropriately.

The following table shows a reconciliation of the movement in the fair value of financial instruments categorised within Level 3 between the beginning and the end of the reporting period.

	Financial assets Unquoted equity securities	Total

## 16. Earnings Per Share

Basic earnings/(loss) per share amounts are calculated by dividing net profit/(loss) for the year attributable to ordinary equity holders of the company by the weighted average number of ordinary shares outstanding during the year.

The company has no dilutive securities on issue.

	30/06/13 \$	30/06/12 \$
Net profit/(loss) attributable to ordinary equity holders of the company used in calculating basic earnings per share	(44,910)	1,080,360
Weighted average number of ordinary shares on issue used in the calculation of basic and diluted earnings per share	360,772,603	369,108,411
Basic and diluted earnings per share (cents)	0.0	0.3

There are no instruments (e.g., share options) excluded from the calculation of diluted earnings per share that could potentially dilute basic earnings per share in the future.

There have been no transactions involving ordinary shares or potential ordinary shares that would significantly change the number of ordinary shares or potential ordinary shares outstanding between the reporting date and the date of completion of these financial statements.

## 17. Events Subsequent To Balance Date

As at 12 August 2013, the All Ordinaries Accumulation Index (being an indication of a general move in the equity market) had risen approximately 7% since 30 June 2013.

No matters or events have occurred subsequent to 30 June 2013 which have significantly affected or may significantly affect the operations of the Company, the results of its operations or the state of affairs of the Company in subsequent financial periods.

## 18. Contingent Liabilities

The Company has no contingent liabilities as at 30 June 2013 (2012: \$nil).

## 19. Notes To The Statements Of Cash Flow

### (a) Reconciliation of Cash

At balance date, no financing facilities had been negotiated and none were available.

## 20. Financial Risk Management Objectives And Policies

Risks arising from holding financial instruments are inherent in the Company's activities, and are managed through a process of ongoing identification, measurement and monitoring. The Company is exposed to credit risk, liquidity risk and market risk.

The Company's principal financial instruments comprise listed equities, cash and short term deposits. The Company has other financial instruments such as trade creditors which arise directly from its operations. The Company may also transact in other financial instruments, including derivatives, to achieve its target rate of return on assets. No derivatives are held at 30 June 2013 (2012: Nil).

The Investment Manager is responsible for identifying and controlling the risks that arise from these financial instruments. The Company has an established investment policy in place. Information about the total fair value of financial instruments exposed to risk, as well as compliance with established investment policy, is monitored by the Investment Manager.

### Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities. This risk is controlled by the Company investing in financial instruments, which in normal market conditions can be easily liquidated. In addition, the Company maintains sufficient cash and cash equivalents to meet normal operating requirements.

### Maturity Analysis for Financial Liabilities

Financial liabilities of the Company comprise trade, other payables and distribution payable, which contractually mature within 60 days.

### Credit Risk

Credit risk represents the risk that the counterparty to the financial instrument will fail to discharge an obligation and cause the Company to incur a financial loss. The company's maximum credit exposure is the carrying amounts on the statement of financial position. The Company holds financial instruments with credit worthy third parties.

# Notes to the Financial Statements

For the year ended 30 June 2013

## 20. Financial Risk Management Objectives And Policies (continued)

At 30 June 2013, the Company held listed equities, unlisted equities, term deposits and cash. Cash deposits were held on an at call basis and term deposits have nominated maturity dates not greater than three months forward with an institution covered under the Banking Act 1959 with a rating from Standard & Poors of AA- (long term) and A-1+ (short term). The Company has no past due or impaired debtors as at 30 June 2013.

### Market Risk

Market risk is the risk that the fair value or future cash flows of financial instruments will fluctuate due to changes in market variables such as interest rates and equity prices. The Company has delegated the management of these risks to an external party who has expertise in the management of such risk.

The following risk control features are in place:

- No one stock will represent more than 20% of the total portfolio value at the time of acquisition;
- The portfolio usually consists of between 10 and 25 securities, although more or less may be held depending on the number of securities identified that are expected to meet the performance expectations;
- Where suitable stocks can not be identified, the portfolio may invest in cash. Whilst unlikely over the medium term, the portfolio may consist from time to time of significant cash deposits;
- Any short positions will not represent more than 20% of the total portfolio value; and
- Leverage may be employed in the Portfolio, but total exposure will not exceed 120% of the portfolio value.

Any breach of these risk control measures will be reported to the Company by the Manager and the Company will determine the appropriate action to remedy the breach.

The portfolio position as at 30 June 2013 is as follows:

## 20. Financial Risk Management Objectives And Policies (continued)

### Interest Rate Risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or the fair value of financial instruments.

The Company's exposure to market risk for changes to interest rate risk relates primarily to its earnings on cash and short term deposits, which have variable interest rates. The total cash balance at 30 June 2013 was \$27,119,609 (2012: \$6,390,047). The Company manages interest rate risk by ensuring that cash balances are always deposited in interest-bearing accounts that provide competitive interest rates.

As at 30 June 2013, cash deposits of \$12,119,609 (2012: \$6,390,047) were held at call. Term deposits with maturities of less than three months of \$15,000,000 (2012: \$nil) were held. \$36,986 was recorded as interest receivable (2012: \$nil).

The following table demonstrates the sensitivity of the Company's Statement of Comprehensive Income to a reasonably possible change in interest rates, with all other variables constant. The change in basis points is derived from a review of historical movements and management's judgement of future trends. The analysis is performed on the same basis for 2013.

Change in Basis Points		2013		2013	
		Effect on Pre Tax Profit (\$)		Effect on Equity including retained earnings (\$)	
Increase	Decrease	Increase	Decrease	Increase	Decrease

Increase	Decrease	Increase	Decrease	Increase	Decrease
50	50	32,000	(32,000)	22,400	(22,400)

### Equity Price Risk

Equity price risk is the risk that the fair value of equities decreases as a result of changes in market prices, whether those changes are caused by factors specific to the individual stock or factors affecting all instruments in the market. Equity price risk arises from the Company's investment portfolio.

The effect on the statement of comprehensive income due to a reasonably possible change in market factors, as represented by the equity indices, with all other factors held constant is indicated in the table below. The change in index level is derived from a review of historical movements. The analysis is performed on the same basis for 2013.

Index		Change in Index	2013	
			Effect on Pre Tax profit (\$)

## Independent auditor's report to the members of Ozgrowth Limited

### Report on the Financial Report

We have audited the accompanying financial report of Ozgrowth Limited, which comprises the statement of financial position as at 30 June 2013, and the statement of comprehensive income, statement of changes in equity and cash flow statement for the year ended on that date, a summary of significant accounting policies, other explanatory notes and the directors' declaration.

### *Directors' Responsibility for the Financial Report*

The directors of the company are responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Act 2001*. This responsibility includes establishing and maintaining internal controls relevant to the preparation and fair presentation of the financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances. In Note 2, the directors also state that the financial report, comprising the financial statements and notes, complies with International Financial Reporting Standards as issued by the International Accounting Standards Board.

### *Auditor's Responsibility*

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. These Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, we consider internal controls relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### *Independence*

In conducting our audit we have met the independence requirements of the *Corporations Act 2001*. We have given to the directors of the company a written Auditor's Independence Declaration, a copy of which is included in the directors' report.

## 1. Management and Oversight

### 1.1 Functions of the Board and Management

The Board's role is to govern the Company rather than to manage it. In governing the Company, the Directors must act in the best interests of the Company as a whole. It is the role of senior management to manage the Company in accordance with the direction and delegations of the Board and the responsibility of the Board to oversee the activities of management in carrying out these delegated duties.

In carrying out its governance role, the main task of the Board is to drive the performance of the Company. The Board must also ensure that the Company complies with all of its contractual, statutory and any other legal obligations, including the requirements of any regulatory body. The Board has the final responsibility for the successful operations of the Company.

To assist the Board carry out its functions, it has developed a Code of Conduct to guide the Directors and key Executive Officers in the performance of their roles.

In general, the Board is responsible for, and has the authority to determine, all matters relating to the policies, practices, management and operations of the Company. It is required to do all things that may be necessary to be done in order to carry out the objectives of the Company.

Without intending to limit this general role of the Board, the principal functions and responsibilities of the Board include the following.

- Leadership of the Organisation: overseeing the Company and establishing codes that reflect the values of the Company and guide the conduct of the Board, management and employees.
- Strategy Formulation: working with management to set and review the overall investment strategy and goals for the Company and ensuring that there are policies in place to govern the operation of the Company.
- Overseeing Planning Activities: overseeing the development of the Company's strategic plan and approving that plan as well as budgets.
- Shareholder Liaison: ensuring effective communications with shareholders through an appropriate communications policy and promoting participation at general meetings of the Company.
- Monitoring, Compliance and Risk Management: overseeing the Company's risk management, compliance, control and accountability systems and monitoring and directing the financial and operational performance of the Company.
- Company Finances: approving expenses in excess of those approved in the annual budget and approving and monitoring financial, investment and other reporting.
- Human Resources: appointing, and, where appropriate, removing the Executive Officers as well as reviewing the performance of Executive Officers and monitoring their implementation of the Company's strategy.
- Ensuring the Health, Safety and Well-Being of Employees: in conjunction with the senior management team, developing, overseeing and reviewing the effectiveness of the Company's occupational health and safety systems to ensure the well-being of all employees.
- Delegation of Authority: delegating appropriate powers to Executive Officers to ensure the effective day-to-day management of the Company and establishing and determining the powers and functions of the Committees of the Board.

Full details of the Board and Executives roles and responsibilities are contained in the Board Charter, a copy of which is available on the Company's website.

The Directors due to their extensive relevant business experience and the fact that their interests are closely aligned to shareholders' interests clearly understand what is required of them. Accordingly, the Company has formed the view that letters of appointment are not required with respect to the Directors.

There are procedures in place, agreed by the Board, to enable Directors in furtherance of their duties to seek independent professional advice at the Company's expense.

## 1.2 Performance Evaluation

The performance of senior executives is reviewed by the Board on an annual basis and also pursuant to the Board's involvement in the day to day operations of the Company. The performance of Executive Officers is assessed against 3 broad criteria:

- the financial performance of the Company;
- the extent to which the Executive Officer has contributed to the Company achieving its organisational aims with a particular focus on the maintenance of the commercial reputation of the Company; and
- the extent to which the Executive Officer has personally acted in a manner which is in accordance with the Company's compliance related policies and procedures.

Similarly in the context of the matters referred to above, with respect to Executive Officers, The Company has formed the view that written position statements are not required. As per the process stated in this section, both Annual and Periodic performance evaluations of the Executive Officers has been conducted during the reporting period.

## 2. Board Structure

### 2.1 Independent Directors.

To add value to the Company, the Board has been formed so that it has effective composition, size and commitment to adequately discharge its responsibilities and duties. The names of the Directors and their qualifications and experience are stated in the Directors Report along with the term of office held by each of the Directors. Directors are appointed based on the specific governance skills required by the Company and on the quality of their decision-making and judgment.

The Company recognizes the importance of Non-Executive Directors and the external perspective and advice that Non-Executive Directors can offer. At the year end there were three Non-Executive Directors in the company, one of which was an Independent Director. An Independent Director must meet the following criteria for independence adopted by the Company:

- is a Non-Executive Director and:
- is not a substantial shareholder of the Company or an officer of, or otherwise associated directly with, a substantial shareholder of the Company;
- within the last three years has not been employed in an executive capacity by the Company or another group member, or been a Director after ceasing to hold any such employment;
- within the last three years has not been a principal of a material professional adviser or a material consultant to the Company or another group member, or an employee materially associated with the service provided;
- is not a material supplier or customer of the Company or another group member, or an officer of or otherwise associated directly or indirectly with a material supplier or customer;
- has no material contractual relationship with the Company or other group member other than as a Director of the Company;
- has not served on the Board for a period which could, or could reasonably be perceived to, materially interfere with the Director's ability to act in the best interests of the Company; and
- is free from any interest and any business or other relationship which could, or could reasonably be perceived to, materially interfere with the Director's ability to act in the best interests of the Company.

The Company does not have a majority of Independent Directors. Mr Jefferies is the sole Independent Director under the above criteria. The Company believes that due to the nature of its operations and size, the current structure is appropriate.

### 2.2 The Chair should be an Independent Director.

The Chairman is not an Independent Director. The Company believes that due to the nature of its operations and size, the current structure is appropriate.

### 2.3 The roles of Chair and Chief Executive Officer should not be exercised by the same individual

The Company meets this recommendation.

### 2.4 The Board should establish a nomination committee

Given its relatively small size and stable structure, the Company has formed the view that a nomination committee is not necessary for the Company to achieve an effective system of corporate governance and the duties normally associated with this committee are carried out by the Board.

## 2.5 Companies should disclose the process for evaluating the performance of the Board, its committees and individual directors

A review of the performance of the Board and its directors is undertaken by each Director with respect to each other Director and the performance of the Board itself on an annual basis and also as part of the regular monitoring of the operations of the Company.

The performance of the Board, its Committee's and Directors is assessed against 3 broad criteria:

- the overall financial performance of the Company;
- the extent to which the party has contributed to the Company achieving its organisational aims; and
- the extent to which the party has personally acted in a manner which is in accordance with the Company's policies and procedures.

The Directors have extensive experience with respect to all aspects of the operations of the Company. In this regard, the section "Information on Directors" in the Directors Report outlines the experience and qualifications of the Directors. The Directors, pursuant to obligations imposed by the Corporations Act and the ASX Operating Rules and generally, undertake a substantial level of continuing education.

As per the process stated in this section, both Annual and Periodic performance evaluations of the Board and its Directors have been conducted during the reporting period.

## 3 Ethical and Responsible Decision Making

### 3.1. Company Code of Conduct

As part of its commitment to recognising the legitimate interests of stakeholders, the Company has established a Code of Conduct to guide compliance with legal and other obligations to legitimate stakeholders. These stakeholders include employees, clients, customers, government authorities, creditors and the community as whole. The Company Code of Conduct was adopted by resolution of the Board. This Code includes the following.

#### Responsibilities to Shareholders and the Financial Community Generally

The Company complies with the spirit as well as the letter of all laws and regulations that govern shareholders' rights. The Company has processes in place designed to ensure the truthful and factual presentation of the Company's financial position and prepares and maintains its accounts fairly and accurately in accordance with the generally accepted accounting and financial reporting standards.

#### Responsibilities to Clients, Customers and Consumers

Each employee has an obligation to use their best efforts to deal in a fair and responsible manner with each of the Company's clients, customers and consumers. The Company for its part is committed to providing clients, customers and consumers with fair value.

#### Employment Practices

The Company endeavours to provide a safe workplace in which there is equal opportunity for all employees at all levels of the Company. The Company does not tolerate the offering or acceptance of bribes or the misuse of Company assets or resources.

#### Obligations Relative to Fair Trading and Dealing

The Company aims to conduct its business fairly and to compete ethically and in accordance with relevant competition laws. The Company strives to deal fairly with the Company's customers, suppliers, competitors and other employees and encourages it employees to strive to do the same.

#### Responsibility to the Individual

The Company is committed to keeping private information from employees and investors confidential and protected from uses other than those for which it was provided.

#### Conflicts of Interest

Employees and Directors must avoid conflicts as well as the appearance of conflicts between personal interests and the interests of the Company.

## 3.2 Diversity Policy

The Company has a Diversity Policy in place. A full copy is available on the Company's website. A summary of the policy is as follows:

- Ozgrowth believes that having a diverse workforce has important commercial and operational benefits. An equally important benefit of diversity is that it assists Ozgrowth in its ongoing efforts to make a positive contribution to the Australian community.
- Ozgrowth is committed to treating all of its staff equally irrespective of their gender, race, age, ethnicity, sexual orientation, disability or any other irrelevant difference; having in place a corporate culture where all staff feel equally welcome and valued irrespective of their gender, race, age, ethnicity, sexual orientation or disability or any other irrelevant difference; and not discriminating in the employment of staff (including the appointment of directors) based upon a potential candidate's gender, race, age, ethnicity, sexual orientation or disability or any other irrelevant difference.
- Ozgrowth is committed to ensuring that any future Board appointments are made without discriminating against a potential candidate on the basis of their gender, race, age, ethnicity, sexual orientation or disability or any other irrelevant difference.

## 3.3 Diversity Objectives and Progress Towards Achievement

Ozgrowth has no other employees apart from Directors. In these circumstances, Ozgrowth has formed the view that, at this time, it is not appropriate or practical to establish measurable objectives for achieving gender diversity and to formally assess progress towards achieving gender diversity.

## 3.4 Proportion of Women

The company currently has no women in the organization as employees or directors.

## 4. Financial Reporting

### 4.1 Audit Committee

The Audit Committee was formed by resolution of the Board.

### 4.2 Structure

The Audit Committee consists of three members. Members are appointed by the Board from amongst the Non-Executive Directors if possible. The current members of the Audit Committee are Mr Jefferies, Mr Diamond and Mr Hughes. All members can read and understand financial statements and are otherwise financially literate. Mr. Jefferies is the Chairman with experience in financial and accounting matters. The details of the member's qualifications may be found in the Directors Report.

The Audit Committee does not contain a majority of Independent Directors. The Company believes that due to the nature of its operations and size, the current structure is appropriate.

The Audit Committee held 1 meeting throughout the year and all members attended.

### 4.3 Charter

The Audit Committee has a formal charter.

The Audit Committee is responsible for reviewing the integrity of the Company's financial reporting and overseeing the independence of the external auditors.

The Audit Committee reviews the audited annual and half-yearly financial statements and any reports which accompany published financial statements before submission to the Board and recommends their approval.

The Audit Committee also recommends to the Board the appointment of the external auditor and the internal auditor and, each year, reviews the appointment of the external auditor, their independence, the audit fee and any questions of resignation or dismissal.

The Audit Committee is also responsible for establishing policies on risk oversight and management.

## 5 Disclosure

### 5.1 Policy

The Board of the Company has in place a policy for disclosure of information, which includes a requirement that shareholders are fully informed to the extent required by any applicable disclosure rules and legislation on matters that may influence the price at which shares change hands in the Company.

The Company Secretary has been appointed as the person responsible for communications with the Australian Securities Exchange. This role includes responsibility for ensuring compliance with the continuous disclosure requirements of the ASX Listing Rules and overseeing and coordinating information disclosure to the ASX, analysts, brokers, shareholders, the media and the public.

## 6 Shareholder Communication

### 6.1 Communication Strategy

The Company respects the rights of its shareholders and to facilitate the effective exercise of those rights the Company is committed to:

- communicating effectively with shareholders through the ASX announcements platform, its website, information mailed to shareholders and the general meetings of the Company;
- giving shareholders ready access to balanced and understandable information about the Company and corporate proposals;
- making it easy for shareholders to participate in general meetings of the Company; and
- requesting the external auditor to attend the annual general meeting and be available to answer shareholder questions about the conduct of the audit and the preparation and content of the auditor's report.

The Company also makes available a telephone number for shareholders to make enquiries of the Company.

## 7 Risk

### 7.1 Policies

The Board determines the Company's "risk profile" and is responsible for overseeing and approving risk management strategy and policies, internal compliance and internal control.

The Board has delegated to the Audit Committee responsibility for implementing the risk management system.

The Audit Committee will submit particular matters to the Board for its approval or review. Among other things it will:

- oversee the Company's risk management systems, practices and procedures to ensure effective risk identification and management and compliance with internal guidelines and external requirements;
- assist management to determine the key risks to the businesses and prioritise work to manage those risks; and
- review reports by management on the efficiency and effectiveness of risk management and associated internal compliance and control procedures.

The Company's process of risk management and internal compliance and control includes:

- identifying and measuring risks that might impact upon the achievement of the Company's goals and objectives, and monitoring the environment for emerging factors and trends that affect these risks.
- formulating risk management strategies to manage identified risks, and designing and implementing appropriate risk management policies and internal controls.
- monitoring the performance of, and improving the effectiveness of, risk management systems and internal compliance and controls, including regular assessment of the effectiveness of risk management and internal compliance and control.

# Statement Of Corporate Governance Practices

---

To this end, practises are in place that are directed towards achieving the following objectives:

- compliance with applicable laws and regulations.
- preparation of reliable published financial information.
- implementation of risk transfer strategies where appropriate e.g. insurance.

The responsibility for undertaking and assessing risk management and internal control effectiveness is delegated to management. Management is required to assess risk management and associated internal compliance and control procedures and report back as required to the Audit Committee.

The Board will review assessments of the effectiveness of risk management and internal compliance and control on an annual basis.

The relevant policies and procedures available on the Company's website.

## 7.2 Attestation by Management.

The Board believes that due to the nature and size of the Company's operations, a dedicated internal audit function is not appropriate and these duties can be carried out by the Company Secretary. The Company Secretary will at least annually attest to the effectiveness of the Company's management of its material business risks and will provide assurance that the declaration provided in accordance with section 295A of the Corporations Act is founded on a sound system of risk management and internal control and that the system is operation effectively in all material aspects in relation to financial reporting risks.

The Company believes that due to the nature of its operations and size, it is not necessary for the Board to convene a separate risk management committee and the duties normally undertaken by such a committee are undertaken by the Audit Committee.

## 7.3 Attestation by Executive.

The Board confirms that it has received the reports as stated in section 7.2 above in respect of the most recently completed financial year.

## 8 Remuneration Committee

As the whole Board only consists of four members which includes one Executive Officer, the Company does not have a remuneration committee because it would not be a more efficient mechanism than the full Board for focusing the Company on specific issues.

### 8.1 Executive Officer Remuneration Policy

The Company is committed to remunerating its Executive Officers, where required, in a manner that is market competitive and consistent with best practice as well as supporting the interests of shareholders. Consequently, under the Executive Officer Remuneration Policy the remuneration of senior executive may be comprised of the following:

- fixed salary that is determined from a review of the market and reflects core performance requirements and expectations;
- a performance bonus designed to reward actual achievement by the individual of performance objectives and for materially improved Company performance;
- participation in an option scheme with thresholds approved by shareholders;
- statutory superannuation

As the current Executive Officer is remunerated by the Company's investment manager, it has been determined that no amount be paid by the Company for his services.

### 8.2 Non Executive Officer Remuneration Policy

Non-Executive Directors are paid their fees out of the maximum aggregate amount approved by shareholders for the remuneration of Non-Executive Directors. Non-Executive Directors do not receive performance based bonuses and do not participate in equity schemes of the Company. No retirement benefits are required to be paid by the Company to Non executive Directors.

At the present time, Mr Jefferies is the only Non-Executive Director being remunerated.
